Livable Cities for All: Re-imagining Urban China Research

China has entered a new era characterized by the efforts to realize the “Dream of Beautiful China” with people-oriented urbanization, targeted poverty alleviation, and rural revitalization. This new era presents both exciting opportunities for China’s path toward sustainable development and some daunting challenges. It is an exciting time for urban China scholars, especially the younger generation, to explore both theoretically and empirically intriguing issues/questions for urban China’s future. This conference welcomes papers from all social science perspectives including sociology, anthropology, economics, demography, geography, history, management, political science, public policy, urban planning and design, and urban studies.

Introduction to Keynote Speakers and Chairs

Mick Dunford

Michael (Mick) Dunford is Emeritus Professor, School of Global Studies, University of Sussex, Visiting Professor, Institute of Geographical Sciences and Natural Resources Research (IGSNRR), Chinese Academy of Sciences, and Managing Editor of *Area Development and Policy*. He graduated with B.Sc in Geography and M.Sc in Quantitative Economics from the University of Bristol. His interests are in global development (at multiple geographical scales and with special reference at different times to Europe and the western world, China and Eurasia and the wider world system) drawing on materialist conceptions of history and geography and on theories of uneven and combined development, regulation and geopolitical economy. His most recent publications deal with the Chinese social model, Chinese poverty alleviation, common prosperity, Chinese economic development since 1949, the Belt and Road Initiative and China's international engagement. He has also written on the Ukraine crisis, global economic evolutions and the emergence of a new multipolar world order.

C. Cindy Fan

C. Cindy Fan is Professor of Department of Geography at University of California, Los Angeles (UCLA). She is also Vice Provost for International Studies and Global Engagement and is the first woman and Asian to hold that position. Dr. Fan received her PhD from the Ohio State University. Her research focuses on migration and split households, gender and regional development in China, and she has numerous publications including the pioneering book *China on the Move: Migration, the State, and the Household* (Routledge, 2008). She has co-edited two international, interdisciplinary journals: *Regional Studies* and *Eurasian Geography and Economics*. Her work was recognized with Distinguished Scholar Awards from the Asian Specialty Group and China Specialty Group of the American Association of Geographers and an Honorary Degree of Doctor of Laws by the University of Bristol. She is also a recipient of the UCLA Distinguished Teaching Award and an American Council on Education Fellowship.

Fulong Wu

Fulong Wu is Bartlett Professor of Planning at University College London. He received BSc and MSc from Nanjing University, and PhD from the University of Hong Kong. He has taught previously in Southampton and Cardiff University. His research interests include urban development in China and its social and sustainable challenges. His latest book is *Creating Chinese Urbanism: Urban Revolution and Governance Change* (UCL

Press, 2022, free downloadable from the publisher's website, www.uclpress.co.uk/ChineseUrbanism). He is also a co-editor (with Roger Keil) of *After Suburbia: Urbanization in the 21st Century* (Toronto University Press, 2022). He currently works on a European Research Council (ERC) Advanced Grant – Rethinking China's Model of Governance.

Weidong Liu

Weidong Liu is Professor of the Institute of Geographical Sciences and Natural Resources Research at Chinese Academy of Sciences. His research interests are regional development and policies in China, foreign direct investments, spatial impacts of new information and communication technologies, and the changing geography of the automobile industry in China. He is the (co-)author of 12 books and 150 peer-reviewed journal papers. He was the previous chair of the RSA-China Division (2014-2021) and the head of the Commission on Economic Geography of the Geographical Society of China. He had been awarded the Elio Maticena Award for Outstanding Papers by Young Scholars in China.

James D. Sidaway

James D. Sidaway is Professor of Political Geography at the Department of Geography at National University of Singapore, where he is also co-editor of the *Singapore Journal of Tropical Geography*. He was also associate editor of *Political Geography* from 2005 to 2017. His main research interests are political geography and geopolitics, especially of cities, states and conflicts, and the history and philosophy of geography. He has carried out fieldwork in Mozambique and elsewhere in Southern Africa, the borderlands of Portugal and Spain, parts of Southeast Asia, including Phnom Penh and Yangon, and subsequently in Persian Gulf cities and the Kurdistan Region of Iraq. He has been awarded the Royal Geographical Society (with the Institute of British Geographers [IBG]) 2022 Busk Medal, in recognition of his “fieldwork and remarkable span of theoretical approaches primarily from the global South”.

Ming Wen

Ming Wen is Professor and Dean of Faculty of Social Sciences at the University of Hong Kong. She also served as the Deputy Editor for the Journal of *Social and Health Behavior* from 2019 to 2022, and served as a Standing Member for the National Institutes of Health (NIH) Community Influences on Health Behavior study section from 2013 to 2017. Wen is a population scholar studying the social determinants of health and human development across the life course. She has published prolifically on social contexts of population outcomes in journals such as *Demography*, *Social Forces*, *Social Science & Medicine*, *Journal of Gerontology*, *Child Development*, *Milbank Quarterly*, *Social Science & Research*, and *American Journal of Public Health*. Her research has been widely cited and generously funded by the NIH and various private foundations.

Introduction to Members of the Conference Organizing Committee

Youqin Huang

Youqin Huang is a Professor and Chair of Geography and Planning at University at Albany, State University of New York. Her research aims to understand the impact of socioeconomic transformation and government policies, focusing on housing, migration, and health and wellbeing.
